FOUR WAYS TO WEAR

Elevate

EYE OF HORUS RING

The Eye of Horus, which represents protection, health and restoration is a core symbol of ZARIG's Elevate collection. A constant reminder to be a better version of yourselves by looking ahead but never forgetting the past. The Eye of Horus ring is created in 18k Yellow Gold set with diamonds.

"As a second-generation jeweler, I've learned four things; quality matters, craftsmanship is just as important, design with intention, and always give back. In turn, a portion of proceeds is donated to organizations that support women in the arts, with the intention of granting female artists the chance to flourish in their respective crafts. In the spring of 2021, ZARIG Jewels will be announcing where the donation will be made in support of female artists."
